I was being hopeful, we can look at meeting you at the site to maximize the time. We can cut off the mitigation site and the other mines.

I can send you a list of areas to see on site early next week.

I have no idea how you are gonna see all that in that time. I'll check with Mike to see if I can get OT or Comp time to stay out later with you on Monday. It'll be getting dark about 5:40 by then. But really it is a couple days to see the proposed site alone.

If by the proposed mitigation site you mean Greathouse Island, we can be flexible but that is a separate day itself.

Think about what you want to see at Seven Hills first and then we'll see what can get done.

Thanks

Hi George

We are leaving Monday morning and should get to Evansville after lunch and need to head back to the city no later than 2 on Tuesday.

In addition to seeing the proposed mine site, we would like to see the mitigation area and if time look at High Point and Liberty.

Wetlands Staff will be Kerryann, Marco and myself. Also Elizabeth Poole from our NEPA office will be with us. Wendy may attend but she is not yet confirmed.

Thoughts? I am in Seattle at a conference this week but will be checking emails.

Andrea
